

MURAKONDA KALYANI

kalyani_murakonda@srmap.edu.in | 7981863124 | 2027
B.Tech, Computer Science and Engineering - Artificial Intelligence
and Machine Learning
Address : Door number : 3-81 , Ibrahimpatnam, Vijayawada, NTR
District

Education

SRM University AP B.Tech · Computer Science and Engineering - Artificial Intelligence and Machine Learning	2027
NARAYANA JUNIOR COLLEGE Class XII - Board of Intermediate Education · mpc · 40-1-61/C, ZIKARUN PLAZA, NEAR BENZ CIRCLE, KRISHNA	2023 Percentage - 86%
NARAYANA (EM) H S Class X - Board of Secondary Education · mpc · BHAVANIPURAM, VIJAYAWADA, KRISHNA DISTRICT	2021 Percentage - 99%

Experience

Edubot Link Mern Full Stack Developement · Internship Developed an Online Portfolio Builder using MERN stack. Implemented JWT authentication, CRUD operations for portfolio sections, role-based template access, dashboard editing, and public portfolio URLs. Managed version control using GitHub.	Jun 2025 - Jul 2025
SRM AP CGT Full Stack Developer · Internship Developed SENSE SDG Awareness Web Platform under Prof. Harish Puppala. Built a full-stack educational dashboard with login system, 17 SDG modules (videos + quizzes), donation invite forms, chatbot integration, and MongoDB backend.	May 2025 - Jul 2025
Skill Craft Technology Link Full Stack Develeoper · Internship Worked on dynamic frontend interfaces and backend integration using HTML, CSS, JavaScript and database connectivity. Contributed to real-world web solutions and deployment workflows.	Jun 2025 - Jun 2025

Projects

Transaction Fraud Detection Link Academic Project · Python, Pandas, NumPy, Scikit-learn Built a classification model to detect fraudulent financial transactions. Performed data preprocessing, feature engineering, and anomaly detection. Applied machine learning algorithms to identify fraud patterns. Improved detection accuracy using optimized model selection techniques.	Machine Learning
AI Voice Assistant Link Academic Project · Python, SpeechRecognition, Text-to-Speech, APIs Developed an AI-based voice assistant capable of speech recognition and automation. Integrated real-time search and task execution features. Implemented text-to-speech for interactive responses. Enabled automation tasks like opening apps, searching web, and system control.	Artificial Intelligence

Customer Churn Prediction | [Link](#)

Academic Project · Python, Pandas, Scikit-learn, XGBoost, SMOTEENN

Machine Learning

- Built an end-to-end ML pipeline using Telecom dataset (7043 records).
- Performed EDA, preprocessing, and feature encoding.
- Handled class imbalance using SMOTEENN technique.
- Trained models (Random Forest, XGBoost, KNN, AdaBoost).
- Achieved **97.22% accuracy** after hyperparameter tuning.

Online Portfolio Builder

EduBot Internship (SRM AP) · MongoDB, Express.js, React.js, Node.js (MERN), JWT

Full Stack Development

Developed a full-stack portfolio builder platform using MERN stack.

Implemented JWT authentication and secure user login.

Built CRUD functionality for portfolio sections.

Designed role-based template access and dashboard editing.

Enabled public portfolio sharing via unique URLs.

SENSE SDG Awareness Platform

Centre for Geospatial Technology (SRM AP) · HTML, CSS, JavaScript, Node.js, MongoDB

Full Stack Web Development

Developed an educational web platform focused on Sustainable Development Goals.

Built login system and interactive dashboard with 17 SDG modules.

Integrated videos, quizzes, and chatbot functionality.

Added donation and engagement features.

Designed scalable backend using MongoDB.

PDF to Audio Converter

Academic Project · Python, PyPDF2, gTTS, pydub

Application Development / AI

- Developed an application to convert PDF documents into audio format.
- Supported multiple file uploads and page selection.
- Enabled voice customization and multiple audio formats (MP3, WAV).
- Integrated sharing and saving functionality.

Awards

Amaravati Quantum Valley Hackathon | [Link](#)

SRM University AP · Amaravati Quantum Valley

Participated in a competitive hackathon focused on innovative technology solutions.

Collaborated in a team to design and develop real-world problem-solving applications.

Gained hands-on experience in rapid prototyping and teamwork.

Hack4Impact Hackathon Participant

SRM University AP · Hack4Impact

- Participated in a social impact hackathon focused on technology-driven solutions.
- Worked on innovative ideas addressing real-world societal challenges.
- Enhanced problem-solving and collaboration skills.

Certifications

Machine Learning Certification | [Link](#)

Coursera

- Completed a comprehensive course on machine learning concepts.
- Covered supervised and unsupervised learning techniques.
- Implemented models using Python and real-world datasets.

NPTEL Certification | [Link](#)

NPTEL

- Completed NPTEL course with strong understanding of core concepts.
- Gained theoretical and practical knowledge in computer science domain.

Python Programming Certification | [Link](#)

Purna Tech Solutions

Learned Python programming fundamentals and advanced concepts.
Developed applications using Python libraries and frameworks.

C Programming Certification | [Link](#)

Purna Tech Solutions

- Built strong foundation in C programming and problem solving.
- Practiced data structures and algorithmic concepts.

Oracle Java Certification | [Link](#)

Oracle

Currently pursuing certification in Java programming.
Learning object-oriented programming and enterprise-level concepts.

Edubot Internship Certificate | [Link](#)

Edubot

- Successfully completed internship focused on MERN stack development.
- Built real-world project (Online Portfolio Builder).
- Gained experience in authentication, APIs, and deployment.

Quantum Computing Workshop | [Link](#)

CDAC (Centre for Development of Advanced Computing)

Participated in a Quantum Computing workshop and hackathon conducted by CDAC.
Gained exposure to quantum algorithms, qubits, and emerging computing paradigms.
Collaborated on innovative solutions using advanced computing concepts.
Enhanced knowledge in next-generation technologies and research-oriented problem solving.

Volunteering

Sociological Conference at SRMAP

Volunteer · Transport Coordination

Artheist Competition

Organizer · Infinitus Fest

Extra Curricular Activities

Arts

Sketching, Drawing, Painting, Crafts, Mandala Art

Batmenton

Skills

Programming Languages: C, C++, Python, Java, JavaScript

Languages and Frameworks: Node.js, Express.js, React.js, Flask

Tools and Technologies: Git, GitHub, VS Code, Postman, MongoDB, MySQL

Technical Skills: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), DBMS, Operating Systems (OS), Computer Networks (CN), Software Engineering, REST API Development, Authentication (JWT) CRUD Operations

Domain Knowledge: Machine Learning, Artificial Intelligence, Full Stack Development, Web Development, Computer vision

Languages

Englist [Professional Working Proficiency], Telugu [Native Proficiency], Hindi [Elementary Proficiency]
